

Dear Partners of UCC Munich, We are happy to announce a couple of novelties that we have been working on in the last months:

1) New Service Desk Hotline

From now on, our Service Desk can be reached under **+49 89 9545391-60** during our support times on weekdays between **8 am and 6 pm CET/CEST**. Please update our contact information as the old number will be deactivated **by the end of August 2020**. We are looking forward to continuing supporting you on urgent matters under the new phone number.

2) New SAP UCC Munich Website

We launched the new website www.ucc.tum.de where you can access all information about our team, our products and services, as well as our upcoming events. However, the joint SAP UCC EMEA portal (www.sap-ucc.com/emea) of UCC Magdeburg and UCC Munich will stay as the main portal providing access to the service desk, learning materials, as well as software downloads.

3) Invitation for SAP Academic Community Conference DACH 2020

The upcoming **SAP Academic Community Conference DACH 2020** will take place on **7th and 8th September, 2020**. On 7th and 8th September, the keynotes will be offered in the morning and the community sessions in the afternoon. Due to the current Corona situation, the event will be held virtually. Also, we would like to invite you to participate in our **Train-The-Trainer (TTT) sessions** before and after the conference **from 31st August to 18th September**.

For further information, registration and also for submitting a contribution, please visit our event website: <http://acc2020.sapucc.in.tum.de/>. Please mark all the tracks you would like to visit during the conference. We will schedule the sessions the best way possible to ensure the possibility for participation in most of your preferred tracks. Also, please keep in mind that the deadline for the contribution submission has been extended **until 26.07.2020**. We are looking forward to the contribution for the community.

4) New “Digital Transformation of Global Bike” Curriculum Website

Last but not the least, we would like to draw your attention to our curriculum “**Digital Transformation of Global Bike**” which addresses the challenges of the digital transformation based on the example of the model company Global Bike. Our curriculum website is now live: <https://dt.sapucc.in.tum.de>. Here you will find more interactive features, which will enable you to favor your own lecture list, create your own learning journeys, as well as to share your opinions with us and the other lecturers in the forum. You can logon with your **H- or U-User login data** that you normally use for accessing the SAP UCC EMEA Portal.

To give you better insights on how to make use of the curriculum in your lectures as well as on the functionalities of the new website design, we have planned online sessions on several days and time slots in July. You can register for the virtual sessions under the following link: <https://registration-dt-curriculum.eventbrite.de>.

We hope that our offerings will meet your interest. We are looking forward to your participation in our online sessions to get acquainted with the new curriculum, as well as in the SAP Academic Community Conference in upcoming September. Please don't hesitate to contact us in case of any questions.

Kind regards

Prof. Dr. Helmut Krcmar, Dr. Holger Wittges & the SAP UCC Munich Team
