

Dear Partners of SAP UCC Munich,

We at SAP UCC are always keen on enhancing our product offerings and meeting your requirements for education. Therefore, we would greatly appreciate it if you could take the time to share your opinions with us through a brief survey on the topic of Data Analytics in education. Please click on the following link to access the survey:

<https://survey.bpm.cit.tum.de/index.php/169487?lang=en>

The questionnaire will take approximately 10 minutes to complete and will be open until 10.04.2024. It consists of three main sections. The first section focuses on general information about your teaching, while the second section addresses the current use of Data Analytics tools. The third section concentrates on the future provision of Data Analytics software and curricula in education. In the fourth part, demographic data will be queried.

Your responses to this questionnaire will be confidential and used only for the purpose of academic research and improvement and extension of our teaching offers.

Furthermore, you will have the possibility to opt-in for a raffle of three 30 EUR Amazon gift cards for all participants that filled out the complete survey and stated their email address.

Thank you very much for your participation and valuable opinions. We would particularly appreciate it if you could forward the questionnaire to interested colleagues. Please don't hesitate to contact us in case of any questions.

Kind regards,

Dr. Holger Wittges and the SAP UCC Munich Team
